Northern Neck Electric Cooperative is an equal opportunity provider and employer.

New Face at NNEC

Northern Neck Electric Cooperative's mission is to provide safe, reliable electric service to our members. This service is performed by hard-working, dedicated, Cooperative employees you talk with on the telephone, meet at the NNEC office or on a job site, or see out in the community. NNEC wants you, our members, to know our new employees who work so hard to keep you better connected.

BRITTANY JOHNSON, cashier and customer service representative, has been a NNEC employee since November. Answering customers' questions on the telephone while processing data on the computer, Brittany's position as cashier and customer service representative is member-oriented. Brittany's duties include providing information for members and initiating meter billings, disconnects, transfers, reconnects, processing mail and payments, new meters, security lights, surge protection, load management and collections.

Family Ties: husband Trevor; daughter Everly Grace and son Tyler.

Washington Youth Tour June 12-16

The National Rural Electric Cooperative Association's (NRECA) Washington Youth Tour will be held June 12 through June 16 this year. NNEC sponsors a contest to select students within its service area to attend the NRECA Washington Youth Tour.

NNEC joins with other cooperatives through the Virginia, Maryland & Delaware Association of Electric Cooperatives to sponsor over 50 students on the Youth Tour. Those selected will join over 1,600 rural electric youths from across the nation for an unforgettable tour.

This trip is coordinated on the national level by NRECA. The Youth Tour was established with one thought in mind — to inspire our next generation of leaders. Since 1964, more than 50,000 young Americans have taken advantage of this special opportunity offered by electric cooperatives. The students spend one day on Capitol Hill interviewing their representatives and U.S. senators. Participants attend committee meetings and sessions of Congress to observe and learn about our government in action.

Students visit museums, educational and cultural exhibits, as well as attending social events while on the Washington Youth Tour.

High school juniors located in Lancaster, Northumberland, Westmoreland, Richmond, King George counties and Stafford High School who are eligible may enter the contest for this trip. The winners are selected through a combination of factors including the essay, student application, letter of recommendation and an interview.

For more information about the Youth Tour Program, visit www.youthtour.coop. To learn how you can participate in Northern Neck Electric Cooperative's Washington Youth Tour program, go to www.nnec.coop for the link under My Community.

Above: After the Capitol Tour, the 2015 NNEC's Youth Tour delegates visited the Statue of Freedom in the Capitol Visitors' Center. This statue is a rendition of the original on top of the dome of the U.S. Capitol. • Inset: Outside our congressman's office is (L-R): Slater Rice; Congressman Rob

Wittman; Emma Oliver; Katelyn Ritenour; and Jolena Towles. • Left: The students enjoyed walking around the Tidal Basin and touring the National Mall.

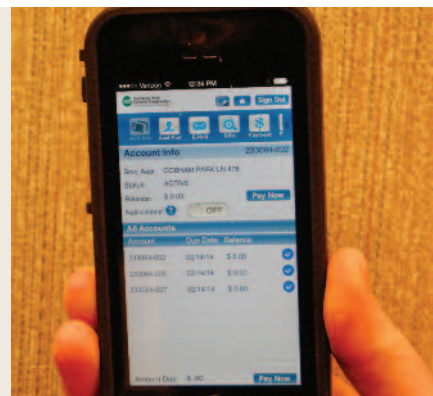

• Below: The students paused for a photograph as they entered the Newseum.

MEMBERS CAN CHOOSE FROM TWO PAYMENT PLANS FOR THE GENERLINK™ COLLAR

While NNEC strives to maintain a high level of service reliability, adverse weather conditions and other forces of nature can cause power outages. To aid cooperative members in coping with these situations, NNEC offers the GenerLink™ emergency transfer switch. The GenerLink™ switch provides a quick, easy and safe way for cooperative members to connect a portable generator to their home's electrical system. The GenerLink™ switch:

- is installed behind the electric meter with no rewiring of the member's electrical system;
- includes the interlocking power cord for connection of the portable generator;
- detects when the generator is operating and automatically disconnects from NNEC's distribution system, eliminating a dangerous backfeed;
- can energize any appliance, up to the capacity of the generator, by use of the home breaker panel; and
- can be used with compatible generators listed on www.generlink.com.

NOTE: Generator is not included. Not all generators can be used with the GenerLink™ collar.

The GenerLink™ emergency transfer switch is available in 30-amp or 40-amp models for single-phase services with a 200-amp or smaller meter base. Payment methods for the GenerLink™ switch include paying the total purchase price at once or paying half of the cost with three monthly installments on the remaining balance. Members must have a good credit record with NNEC and sign the GenerLink™ purchase form.

Buy the GenerLink™ 40-amp, 9.5-kw switch installed with tax for \$829.75 total, or on the installment plan you make a down payment of \$434.88 with two monthly payments of \$131.62 and one monthly payment of \$131.63. The 40-amp unit will accommodate up to a 10,000-watt generator.

Buy the GenerLink™ 30-amp, 7.2-kw switch installed with tax for \$713.92 total, or on the installment plan you make a down payment of \$376.96 with three monthly payments of \$112.32. The 30-amp unit will accommodate up to a 7,200-watt generator.

For additional information or to have an emergency transfer switch installed on your service, contact Customer Service at 333-3621 or 800-243-2860.
